# Why partner with TCM?

---

- Clients rebound from aesthetics procedures, with sensitivity and barrier damage — they need internal + external care.
- Long hours, stress and poor sleep cause dull complexion, acne and early ageing — skincare alone cannot fix this.
- Postpartum mothers need help with diastasis, leakage and mood changes beyond what beauty tools offer.
- Your staff develop chronic neck and back strain from hours of posture work.
- A growing segment rejects chemicals and invasive procedures, and wants natural alternatives.

## What VINATH TCM brings to you

- Cosmetic acupuncture: facial lifting, pigment improvement, sensitive-skin recovery — visible in one session, no downtime.
- Womb moxibustion: for cold uterus, period pain and menopause mood — a premium recurring treatment.
- Herbal constitution customisation: personalised formulas based on tongue and pulse.
- Staff wellness: subsidised TCM tuina to reduce occupational strain and turnover.
- Differentiation: a rare "TCM + beauty" integrated programme in Johor — higher ticket, stronger loyalty.
